SEWING MACHINE.

Copy of the Report of the Committee of Awards at the Fair of the

AMERICAN INSTITUTE
NEW YORK, 1865.

To the FLORENCE SEWING MACHINE CO. for the Best Family Sewing Machine.

HIGHEST Premium! Gold Medal!

REASONS:

- 1st.—Its simplicity and great range of work.
- 2d.—The Reversible Feed Motion.
- 3d.—The perfect finish and substantial manner in which the Machine is made.
- 4th.—The rapidity of its working and the quality of the work done.
- 5th.—The self-adjusting Tension.

The Florence was awarded the first and highest premium at the State Fair of California, the only Fair on the Pacific coast at which any two double thread Sewing Machines were exhibited in competition in 1865.

The Florence received the only premium awarded by the Mechanics' Institute of San Francisco, in 1864 and 1865, to any Sewing Machine, Sewing Machine Co., or Agent. The claim of a competitor to a medal is without any foundation whatever.

Wherever the Florence has been brought in competition with other Sewing Machines, it has always been declared the best. It is the most simple, the most substantial, the most efficient, and its use is easily learned. Every Machine sold is guaranteed in the full sense of the word.

REDINGTON & CO.'S COLUMN.

REDINGTON & CO.'S

ESSENCE OF JAMAICA GINGER.

THIS valuable preparation, containing in a highly concentrated form all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs.

As a tonic it will be found invaluable to all persons recovering from debility, whether produced by fever or otherwise, for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by the riding in a railroad car, sea-sickness, or other causes. It is also valuable as an external application for Gout.

"He that had been possessed with the devil prayed Him that he might be with Him."

Not now my child—a little more rough teasing
A little longer on the billow's foam—
A few more journeyings in the desert darkness,
And then the sunshine of thy Father's home!
Not now—for I have wanderers in the distance,
And thou must call them in with patient love;
Not now—for I have sheep upon the mountains,
And thou must follow them where'er they rove.
Not now—for I have loved ones sad and weary:
Will thou not cheer them with a kindly smile?

At a time when the railroads of the country were peeding all the rolling stock they could get, and were willing to pay for it in cash, President Johnson ordered 164 engines and 2,589 cars, to be sold at cash prices on long credit, to Southern railroads, for the enormous amount of \$7,428,204 96, while the cash sales were only \$3,476,736.33. Of that sold on credit, not one-fifth has yet been paid and much of it never will be. It was a generous offer to the Southern railroads, inviting them to come back into the Union and receive the new cars and engines the Union had built at the Nation's expense. They accepted the invitation; but only one of these roads has as yet paid in full for the rolling stock thus purchased.

SOUTHERN RECONSTRUCTION.

South has been reconstructed into loyalty, by Andrew Johnson's "Policy," is an important question. Here is an item of evidence from a Southern journal: An attempt was recently made, says the Memphis Post, of Oct. 23d, 1866, to assassinate Col. Frisbie at his hotel in Alexandria, La. The Colonel is extensively engaged in cotton planting, and employs 500 negroes who formerly served in his regiment. He was recently publicly notified by a committee of prominent citizens, headed by Judge Ryan, that he must leave the country, as they wanted no Yankees there, and hereafter they would not be allowed to cultivate plantations.

REMAINS OF HENRY P. CROFT FOUND.

E. T. Starr, while out hunting yesterday a short distance East of his brother's residence, discovered considerable portions of human remains, which upon investigation were ascertained to be fragments of the body of Hank P. Croft, a former well-known teamster of this city, who very mysteriously disappeared from his residence about the first of August last. The flesh was almost completely eaten from the bones, which were scattered about, and the remains were identified principally through the peculiarity of the clothing worn and a notable jack-knife always carried by deceased. Croft was at times subject to spells of mental derangement, to which cause may be attributed his death. His remains were taken in charge by Coroner Hamilton.—Marysville Appeal.

The Providence Journal says the reports

of a divorce pending between Senator Sprague, of Rhode Island and his wife, that the "story is an utter falsehood, in whatever shape it has appeared, and not only false, but without one iota of foundation. There is not, in the country, a man happier, or who deserves to be happier, in his domestic relations, and nothing has occurred to afford even a pretext for the slanders which have been invented by malice and circulated by scandal.

SOLDERING SOLUTION.

The following receipt is recommended for making a most excellent soldering fluid:

Two ounces muriatic acid, in which as much zinc is dissolved as it will hold, to which add half an ounce sal ammoniac. Clean the metal well and the solder will run and adhere to any part of the metal to which the solution is applied. It will also solder brass and steel together.

A GOOD APPOINTMENT.

Gen. J. A. Mower has been assigned by Gen. Sheridan to the command of Louisiana. The General is a former resident of New London. The Tribune says: "Gen. Mower was one of the officers appointed to investigate the causes of the massacre in New Orleans, and one of the signers of the celebrated report. He served with distinction during the war, and has the reputation of a good fighter, and a prudent and upright man."

FROM MARYLAND to the Mexican border

there is not to-day a friend of the American Union, white or black, who does not regard Andrew Johnson as more his foe than Jefferson Davis; and when the Union army is ordered in to put down the brave Union men of Baltimore, there

SEMI-WEEKLY ENQUIRER.

SATURDAY, DECEMBER 2, 1866.

IT MAY BECOME NECESSARY.—The action of the Republican members of Congress seems to establish conclusively that the 40th Congress will be convened on the 5th of March, 1867. In that event, the oft-mooted question of the possible necessity for an extra session of our California legislature will have some foundation demanding consideration. If the 40th Congress should meet in March, California would be without representation in the lower house from that time until the following December.

Whether that fact will be of sufficient importance to State and National interests to justify a called session of the legislature, will demand and excite inquiries. So far as National questions are concerned, the radical majority is sufficient, with an ample margin, to insure the two-thirds requisite to hold the Executive in check, without the aid of the Senate. In the absence of our Legislature there will be 137 Republicans to 44 Democrats, giving a total of 181, with 122 necessary to pass bills over vetoes. This would leave a margin of 15, which would seem sufficient for probable emergencies, but, according to "intelligent contraband" phrases, "white men am berry unsartin" and in trying times it is "dangerous to be safe." Considered from a purely Californian point of view, the importance of the question will perhaps assume greater magnitude.

Our friend Julian has been returned from his district in Indiana. Although eminently sound on political issues, it has been and may again become necessary that California should have better guardians of her interests in Congress than the aforesaid. Doubtless, those on whom the responsibility rests will duly consider these points and decide wisely in the premises. *Nous verrons.*

THE BEST OF THE LOT.—Many incumbents of petty Postmasterships and other Federal offices, worth from six bits to two and a half per quarter have bid for a reputation for impeccable independence by publishing prosy replies to the famous bread-and-butter circular demanding signs of war for Johnsonian electioneering purposes. The only one of these unswerving patriots who has produced anything which we considered worthy of reproduction, we quote below. In a brief paragraph he has established his claims to a proud pre-eminence as logician and humorist. Here is his response.

SHASTA, NOV. 25, 1866.
Ch. Knap, Chairman, and G. Mason, Secretary Resident Executive Committee of Philadelphia Convention, Washington.
Gent.—Your circular of October is received. In reply I have to say that there is but one request therein contained with which I can comply, viz: "Do not pay one dollar to any traveling agent of the Committee."—I may put me down as sound on that.

Respectfully, yours, &c.,
L. WELLENDOREFF, R. M.

IRSE DIXIE.—From the Marysville Appeal we clip the following paragraph:
The Cause still advocates impeachment, and makes some very extravagant assertions. "The Union being so strongly committed to the policy of impeachment it is not expected to surrender its judgment without an argument. There is, however, no two talking. No one will be impeached."

This finally and absolutely settles that question. As remarked elsewhere, by corresponding with Seward the Appeal map has caught the spirit of prophecy and furnishes daily proof that he's got it bad.

A "PARALLEL" FINALITY.—A series of parallels between our Andy Johnson "Moses," and he of ancient days, originated in the West during the late canvass and have been "going the rounds." One to wind up suggests itself to us. "Moses" signifies "drawn out," and the child found in the bulrushes was thus named by Pharaoh's daughter because he had been "drawn out" of the water. During his Western tour our modern "Moses" was most effectually "drawn out," and by the subsequent elections quite as thoroughly "played out."

A FELONIOUS MADMAN.—A Stockton-bound lunatic arrived in Sacramento a few days ago, examined the foundation of the new capital, endorsed the report of the commissioners as to its safety and, before starting for the Inyo Asylum, propounded the following:
Why is Fenian Stephens like Macassar oil? His keeper "gum it up" and he explained—Because he is the world-renowned Head Center (head center.) Gold Hill News please copy.

VALLEJO & MARTSVILLE RAILROAD.—From a private letter to Mayor Hutton, from a gentleman at Vallejo, we learn that the contract for the construction of the first seven miles of the Vallejo and Marysville Railroad was let and that the work has already been commenced.

It is with sorrow not unmixed with surprise that we notice the death of the man who some years ago, being very unwell, undertook to cure himself by taking Brandreth's Pills according to the directions, viz: to double the dose every day until better. After a while his servants pitched them down his throat with a scoop shovel.

THE DIE CAST.

The several votes on sharp, incisive, test questions, which have marked the opening of the present session of Congress, proclaim in clear and unmistakable language the welcome tidings that the day of temporizing and of conciliatory experimenting has passed, and that an era of positive action has been inaugurated. Liberty, conciliation and fraternal advances having been met with arrogance, contumely and vituperation, Congress, as is just, right and becoming, has decided to assert the dignity of the nation, the virtue of loyalty, and claim all and every of the full and dearly bought fruits of victory. The Government which, with a generosity unparalleled, offered full forgiveness of crimes the most heinous and damning, on simple guarantees against recurrence, will no longer permit its pardoned though unrepentant foes to requite its magnanimous forbearance by virtual ostracism of loyal Southerners because of their loyalty, nor repeat its offer to cast its tried and true friends beneath the feet of its enemies to be trampled and spat upon. Refusing, with supercilious sneer, to be restored to their self-sacrificed positions in the Union with absolute equality of rights on the pledge of perjured men to "go and sin no more," even ordinary self-respect forbids that their victors should longer abjectly await their rebellious pleasure or humor their traitorous sullenness. That "moderation" which has honored a traitorous before a loyal record as a stepping stone to governmental favor is among the by-gones, so far as the law-making department of that government is concerned. On these points the votes referred to are conclusive. Congress may vary or modify the methods of action foreshadowed by those votes, but that the will of the loyal, expressed through their chosen agents, is to control, absolutely and entirely, the whole question of reorganization, reconstruction and restoration, in general and in detail, there can be no manner of doubt. Henceforth, in the South as well as in the North, a friend of the government and an advocate of its safety and perpetuity is to be preferred as a guardian of its trusts, before those who are its enemies and who would wield its powers to destroy it. We hail the indications of firm and just purposes indicated by the initiative votes in Congress, as harbingers of a more healthy progress towards that harmony and prosperity which every good citizen must yearn for.

HOW HE WAS CONVINCED.—President Johnson, in his late Message, in referring to his professed convictions of Southern acceptance of the situation, said: "their correctness has been confirmed by reflection and time." Among the evidences which were calculated to force conviction on his perjured soul, recent action in the State Senate of Texas must have played a prominent part. In that body the following proceedings were had:
Senator Shelby introduced a resolution reciting that the State Cemetery has been lately used for the interment of Federal soldiers. The Senator thinks this ought to be remedied. The cemetery has only been used heretofore for the interment of the distinguished sons of Texas. Hereupon Mr. Fergusson, Mr. McCulloch, (Ben.) and Mr. McCloud. It was not fit that "any one" should be laid there by their side without consulting the State. He moved that a tract of Government land be appropriated for the use of the United States Government for this purpose, and that the said Federal soldiers be disinterred and removed thence. Senator Fergusson thought the "vile dust" of these mercenaries was unworthy to be mingled with that of the distinguished heroes and statesmen of the Lone Star State. The State Cemetery should not be polluted by the entrance into its sacred precincts of such trash. It is a notorious truth that the soldiers of the Regular Army are to be very "scarce of the earth." Even admitting them otherwise, it was a place set aside especially for the "ashes of Texas," and he hoped it would never be used for any other purpose.

It being reported that E. B. Boutwell would start a Union paper at Grass Valley we suppose his paper, at Nevada Lake is to be removed, there. By reason of his "open letter" correspondence with Secretary Seward, or from some other cause, the Editor of the Appeal has become inculcated with the prophetic unreliability which so distinguishes the "great American diplomatist." We can assure our friend that he is entirely wrong in his guess. Meadow Lake is destined to be a permanently prosperous mining camp, and the Sun is to be no less permanently identified with its life and progress. There are numerous presses in San Francisco, and Robbins has abundance of material for an office at Grass Valley, or elsewhere, whenever we need it, of which we will keep the Appeal Editor duly posted, if we should decide upon extending the area of our usefulness Grass Valley-ward.

THE WEALTH OF THE NATION.—The following figures approximately illustrate the relative value, estimated in specie, of the various industrial interests of the United States, as estimated by recent inquiry at the bureau of statistics, Treasury department:
Agriculture and forest products..... \$1,700,000,000
Manufactures..... 75,000,000
Mineral products..... 25,000,000
Fishing..... 15,000,000
Profits on foreign commerce..... 150,000,000
Profits on domestic commerce..... 1,500,000,000
Average increase (annual) in value of gold, silver, copper, iron, and other metals..... 2,400,000,000
Total..... \$4,580,000,000

Snow at Meadow Lake is reported to be three feet deep. At Cisco, twenty inches.

CONGRESSIONAL REFORMS.—A telegram (special) through the Overland Hawser (a continuation of the Atlantic Cable) informs us that Hon. John Morrissey favors the scheme for convening the 40th Congress on the 5th of March, and that he has given notice that on that day, or as soon as practicable thereafter, he will introduce a Bill declaring fair checks a legal tender, and providing uniform rules for the government of "case keepers" throughout the United States. Also: that Ben Wood favors the establishment of a Lottery Bureau and provisions for a Grand National scheme for the payment of the Confederate debt.

In Dutch Flat, December 4th, the wife of James Brady, of a daughter.
Near Gold Run, Placer county, Dec. 4th, 1866, the wife of Henry Weisgarber, of a daughter.

DIED.
At Newcastle, December 4th, FRANK H. son of W. H. Puffer, aged 4 months.

CARD.
Cisco, December 5th, 1866.
Whereas, upon the morning of the 28th of August, I was called by the death of my wife, Thos. Flaridon at Dutch Flat, for very offensive language and ingratitude. And whereas, this has afforded an opportunity for that same old clique of busy, mischief-making enemies of mine to once more throw a little mud or dirt, as they have had been doing, and to manufacture and put in circulation many designs of false and corrupt reports, intended for my injury and to prejudice the public.
I therefore deem it a duty to give a correct version of the whole affair under oath, as the other side has had its say, and there is not a fact that I desire to withhold. And this will necessitate my being tedious, as I desire to correct the many false reports, for I would be a cruel wretch, indeed, were I guilty of one half that calumny has accused me.

On or about the 9th of June, Thos. Flaridon had his face badly broken by a kick from a horse. I was called to dress his wound and I continued dressing it, quite and twice a day. I required, for three weeks with an exception of one day, three bandages medicine &c. He had a good recovery. His account amounted to eighty-six dollars. On my quitting the Flat in September, I first mentioned the account and told him I would do it. He promised to pay as soon as he could. I have mentioned the bill to him three or four times since, or he to me, and each time he made fair promises.
I have at no time made a demand of money or in any way urged him to pay, rather than to tell him that I was needing money and for him to do the best he could.
Some weeks ago he was here with his team and said could he get his money he would pay me some. I wished him to have two days for me but he left the next morning without doing it.
On the morning of the 28th, I saw him in front of Seffens' stable and on my approaching him he said he had not paid a party twenty dollars but he had two weeks previously promised me he would do without fail, but said he was at work for the next month. (But Seffens, who previously told me that Flaridon was in his debt.)
After standing in silence for one or two minutes, I turned to go to the fact that I was at much expense and would be glad to have him pay me a part, but before I had half finished the sentence he flew into a fit of swearing and excitement and said as I had would never pay a G-d-d-cent, "that he might do what I G-d-d-please, and a great deal more of the same sort."
I struck him on the head with my fist, and he grappled with me and kicked him several times while he was partially down on his hands and knees. I do not think I touched him with my foot, nor do I think he would have opened as reported. He howled and he would pay me. I stopped and he got up and he would pay me. I went up town and attached his horse, which I much hated to do, but supposed I would never get a dollar other than he had said both by word and action that he would never pay me.

It is my opinion that the influence of others caused him to refuse to pay. During the fight he nor I made any reference to his face as reported. He did not strike him because he could not nor did not, but because of the cursing and his then swearing he never would pay, after so many fine promises.

I have never received a cent nor had I ever spoken an unkind word to him. I believe he richly deserved all he got, and I hope ever to be able to resent such abuse as I received from him, and to properly chastise the abuser, irrespective of those persons that would encourage him not to pay his debts. I pronounce as base and unworthy the many reports differing from this.
W. C. JONES.
Sworn and subscribed before me, this 6th day of December, 1866.

SEMI-WEEKLY ENQUIRER.

It is announced in England that an extensive business is carried on there in hunting up portraits of Americans, in order to make galleries of ancestors. An American agent, recently in London, explained that his business was to "collect ancestors" and that he had been quite successful, having picked up many good portraits, and that, "with proper attention to costume and age, and some little heraldic additions, he had matched suitable husbands and wives for two or three generations, and had exported several very well assorted families, which, being provided with full credentials, were most filially adopted, and that he was continuing his highly remunerative researches."

The other day a well-known citizen of St. Louis, who has the reputation of being something of a wag, rushed into the Central Station and reported that on the night previous a fellow came stalking into his house stark naked, and that he was unable to put him out, and that he was there yet. Three Policemen at once started on the run to oust the intruder. When they got into the house, they saw the fellow who had come in there the night before. The nurse brought out the baby, which the citizen's wife had presented him with the night before. The Policemen suddenly disappeared.

A DOG GONE GOOD JOKE.—An exchange paper says: "A great watch-dog, belonging to a Philadelphia dry goods warehouse, died recently, and the clerks could not get rid of the body. They finally put it in a packing case, nailed on the lid, and marked it 'A. T. Stewart & Co., New York,' left it over night on the sidewalk, first giving a hint to the watchman on that beat. That same night a furniture wagon, with the horse's feet muffled in pieces of carpet, drove up, two men jumped out, quickly and quietly put in the box, jumped in again and drove away. That was the last seen of the remains of that faithful animal."

An amusing story is told of a cunning exhibitor at a recent agricultural fair in Connecticut, who divided a bushel of peaches, and entered one-half in his own name for competition, and the other in the name of an influential man in a neighboring town. The big man got the prize and the other contribution, although off the same tree, was not mentioned.

A LOUISVILLE genius has invented a new and exciting game of chance, which he calls "fly loo." It is played by any number of persons. The players names are written close together on a sheet of paper, and a small lump of sugar is laid on each. The owner of the lump on which the fly first lights loses or wins as has been first agreed on.

A DOWN-EAST editor said he was in a boat when the wind blew hard, but he was not at all alarmed, because he had his life insured; "he never had anything happen to him by which he could make any money."

ENAMORED.—A young man recently wrote to his sweetheart, saying: "There is not a globe of blood in my heart which does not bear your photograph." He had it bad hadn't he?

THIS CELEBRATED INSTITUTE

has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. The system, through which Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of patients among the very first of the world, and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES and IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system, and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength from the frame; they give to the world many diseased offspring. (What then, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiote, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venereal Poison. The mildest forms, by retreating to the blood, hold over the afflicted one, the destruction that is latent at that moment to fail and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubles its dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

Do not be satisfied with partial cures that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will battle the effects of medicine. WHEN PERFECT CURES can be obtained by consulting a physician whom long practice and thorough investigation into the causes of DISEASES OF THE URINARY ORGANS enables to determine at once the nature of the disease, and cure it.

In all cases entrusted to the Doctor's care, PERFECT, SPEEDY and PERMANENT.

Cures are Always Guaranteed.

In syphilis and its adjuncts: Gonorrhoea and its accompanying diseases; all diseases of the Bladder, Kidneys, and prostate; Seminal Weakness, Diseases of the Heart and Lungs; Dyspepsia; Indigestion; Impotency; Incipient consumption, and all diseases of the urinary organs, in either sex, are always warranted. NO PAY REQUIRED, at the

Private Medical Institute, No. 536 Washington street, San Francisco, Cal.

Seminal Weakness or Spermatorrhoea

The young man who experiences that growing weakness in his muscular and mental organization should stop to consider what it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion, unaccountable failing of the powers of the mind, distaste for society, dread of impending trouble, foreboding of evil, nervousness, troubled and lascivious dreams, accompanied by growing deafness, loss of muscular power, and numerous other symptoms of disorganization, the positive traces of that insidious and destructive disease of all diseases Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence towards a premature and a painful grave. To him who finds his life dribbling out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such a one no hope of cure, but adds to his misery in the knowledge that he, one who looks to marry, and to secure a wife, is a victim to his evil, and an innocent companion and his punishment. He adds to his misery and disorder until he leaves him. There is no rescue except in proper and skillful treatment. Consult then, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vice, that dreadful, fascinating and destructive habit, which fills thousands of sick-rooms with paralytics and consumptives, and hundreds of untimely graves with the misguided victims, should consult, without a moment's delay, one who sympathizes with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not fret the address. See below.

Important to Females.

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the only person to whom she should apply is a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community. The Doctor understanding how imperatively necessary these requirements are, he calls upon to interpret, and beg the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, with the most successful manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who will feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation by letter or otherwise, FREE. See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accruing testimonials of their efficacy declare them to be pre-eminently superior in their action. No lady should be without these Renowned Agents. None genuine unless procured at this office.

Sent by Mail or Express, to any part of the State. THE GREAT FEMALE MEDICINE! PREVENTIVE POWERS FOR MARRED LADIES. Now, Safe and Infallible, lasting from four to six months. Price, \$10. These Life-giving remedies are now given to the world. For over a quarter of a century of private practice the ingredients in these

LIFE-GIVING PILLS!

Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be

A VERY FOUNTAIN OF YOUTH,

For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle-aged, they will prove most invaluable, as a daily, specific, and sustaining medicine. Here is a dream realized, that Ponce-De-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to vigor and manly youth ever

AN ETERNAL SPRING!

It was left for this day and hour to realize the dream, and show in our glorious fact, the magic that made it fair.

THESE REMEDIES!

Cannot stay the flight of years, but they can force back and hold aloft the torch of life, triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity, and effects, when taken as prescribed.

FOR BILIOUS DISORDERS

Nothing can be more productive of cure than these Pills. Their most magic influence is felt at once; the usual constipation, flatulency, and other diseases are removed. These remedies are made from the purest

VEGETABLE COMPOUNDS.

They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.

FOR CUTANEOUS DISORDERS

And all eruptions of the skin, the SALVE is most invaluable. Internally alone, but penetrates with the most searching effects to the very root of the evil.

DR. CHAS. H. TOZER'S PRIVATE MEDICAL INSTITUTE, N. E. Corner of Kearny and Jackson Streets, SAN FRANCISCO.

The Great Bradorator of Special complaints, form erty of Locke Hospital, London, Eight Years in Sacramento, and the last Four Years in San Francisco.

DR. TOZER'S Experience is of forty years' standing, and during that time he has met with unparalleled success in the treatment of all those diseases generally known as Venereal or Chronic.

It is impossible here to mention all the diseases with which he is familiar; some, perhaps, will not be out of place. The most formidable, the most destructive to mankind is Self-Abuse. The brain being the seat of the disease, the whole system suffers in consequence. I will here enumerate some of the symptoms, so that those afflicted may be able to form an opinion in regard to their complaints and seek advice in time, thereby saving themselves a world of suffering: Nervous Debility, Loss of Memory, Pain in the Limbs and Back, Palpitation of the Heart, Trembling of the Limbs, Headache and an aversion to general society, especially that of females. There are a great many more, but these are sufficient, and should you be suffering from any of them, call on Dr. TOZER, and he will cure you in a short time, without any interruption to your business—or state your case by letter, and there will be no occasion for your calling at the office.

Stricture of the Urethra Is another formidable enemy to health. Send for one of my circulars on that disease, and inform yourself of the worst cases cured in a few days.

Veneral Diseases, In all their various forms, either Primary, Secondary or Mercurial, completely eradicated from the system. Your constitution will be as sound as that of a child, and there will be no danger of handing down to your children that terrible disease known as Scrofula.

Syphilitic Disease, As it presents itself on this coast, is of a more formidable character than that seen in the Atlantic States or Europe, arising from the fact of its being a compound of Spanish, Chinese and Sandwich Island disease. Those of you who have visited the two countries no doubt have seen the dreadful effects of it on the native and foreign population. It requires altogether different modes of treatment.

The Old Formulas, Of Ricord, Acton and Postwick, are of little account, except to cry up the disease on the surface, leaving the poison in the blood, which, sooner or later, will show itself as a secondary disease in an aggravated form. These facts I have learned by experience, and think I can say without boasting, that I have seen more practice in these diseases than any other physician in San Francisco, dating as it does, from 1849. It becomes you, therefore, to think well before you employ a physician. Who is the proper one to consult? An old experienced one, or one who has recently settled among you?

My plan is purely vegetable, destroying the disease and purifying the blood so that there is no danger of secondary symptoms.

Rheumatism, Neuralgia, And diseases arising from the use of Mercury, such as pains in the skin bones, swellings of the different joints of the body, running sores, etc., and purities of the blood, cured in a short time by the use of my VEGETABLE MIXTURES, known only to myself.

Seminal Weakness, Should you be afflicted with any of the following symptoms, such as weakness of the Back and Limbs, Pain in the Head, Dimness of Vision, Nervousness and General Debility, Loss of Memory, Confusion of Ideas, and Depression of Spirits, Evil Forboding, Self-distrust, and an aversion to society, consult DR. TOZER at once, and he will restore you to perfect health.

To Females, When you are afflicted with Weakness of the Back and Limbs, Head, Loss of Muscular Power, Palpitation of the Heart, Irritability, Nervousness, Extreme Urinary Difficulties, Derangement of the Monthly Sickness, Sterility, and other diseases peculiar to females, consult DR. TOZER, and you will receive particular attention. Let no false delicacy prevent you, but apply at once, and save yourself from painful suffering and premature death.

My rooms are so arranged that there is no danger of exposure, and of meeting any one save the Doctor. My FEMALE MONTHLY PILLS were never known to fail in giving relief in those cases for which they are recommended. To be obtained only at my office.

Price, FIVE DOLLARS—with full directions on each Box. Sent by Mail or Express.

To Correspondents, Patients of either sex, residing in any part of the country, however distant, who may desire the opinion and advice of DR. TOZER, can, by submitting a written statement of their case to the Doctor, receive all the attention and medicines necessary to effect a cure, without the necessity of a personal interview. All letters strictly confidential, opened and replied to by the Doctor himself.

Consultation at the office or by letter, FREE. Cures in all cases guaranteed. Office hours from 9 A. M. to 10 P. M.
